Medical Care in more Detail

Pediatric Cardiology

Following all modern diagnostic procedures, that can be done non-invasively in pediatric cardiology

Modern ultrasound technology, also with portable high end machines

Computer based ECG, Holter monitoring and stress ECG, using treadmill and bicycle, depending on age and body height.

Exercise test, measuring oxygen uptake, CO₂ delivery and capillary lactate. This is also a potent tool for physiological assessment in sports medicine.

Event recording for patients with rare arrhythmia

Blood pressure is always measured by oscillometry ; 24-hour – blood pressure measurement is available for all age groups

General Pediatrics

Medical care for all acute and chronic diseases in paediatrics

Regular health checks (U2-U11 and J1/J2) as scheduled by German medical authorities

Vaccinations as recommended by the Permanent German Vaccination Board. Individual counseling is given in special cases.

Ultrasound diagnostics for babies, infants and school children

Vision and hearing tests by automatical, computer based measurements

Lung function tests using body plethysmography

On line linkage to a powerful biochemical laboratory, providing a wide spectrum of biochemical, functional and genetic tests

GUCH (Grown up congenital heart disease)

Once a week -at Monday mornings – we see adults with congenital heart disease. The clinic is located in the practice of Dr.Herkommer and Dr.Mulser in Starnberg-Percha, Enzianstraße 4 a, (www.kardiologie-starnberger-see.de). They are specialized in cardiology and internal medicine. Both Prof.Stern and U.Fakler are qualified in care for GUCH patients.

Neonatology

Prof.Stern is specially qualified in care of neonates. Mr.Fakler gained his experience in acute care of newborns from working in pediatric intensive care units and his time as newborn emergency doctor in Munich. All technical requirements for newborn care are met.

Our practice take care for the newborns in the department of obstetrics in the Helios Clinics Munich West in Munich-Pasing.
